01 COMPETITION SETUP

- Each auction room contains 20 independent teams.
- Every team receives a starting purse of €700 million.

- A player's auction score is the total of the three displayed attributes.
- All purchases, bonuses, and rankings are calculated separately for each room.

BUILD • BID • BALANCE • WIN

AUCTION & BIDDING

Every bid is a commitment. Track the purse before raising the paddle.

02 BUDGET AND PURCHASE RULES

- Bidding begins from the player's announced base price.
- A team may not bid more than its remaining purse.
- A player becomes SOLD when the auctioneer closes the highest valid bid.
- A player receiving no valid bid is marked UNSOLD and may be returned to the pool by the organizers.

03 BID INCREMENTS

CURRENT BID	NEXT VALID INCREMENT
€5M to below €20M	+ €1M
€20M to €50M	+ €2.5M
Above €50M	+ €5M

Boundary rule: once the current bid reaches €20M, the €2.5M increment applies. The €5M increment applies only after the current bid moves above €50M.

MYSTERY PLAYER RULE

The base price of every Mystery Player may or may not be the same. Mystery Players are auctioned normally, like any other football player. The player's identity and complete statistics remain hidden and are revealed only after a team purchases the player.

CAPTAIN NOTE

2X

Assign one Captain from your team's Best 8. The Captain's player score counts twice, meaning the team receives an additional bonus equal to the Captain's full three-attribute score.

FORMATION & SCORING

Qualification comes first. Only the strongest valid lineup drives the result.
